

Trip to Torriglia (Genoa) from 24th to 28 th of February 2010

A couple of weeks ago a group of teachers of the Mediterrània Secondary School went on a trip to Italy due to the project called Comenius, which was accepted by the Valencian Government, last summer.

The project is titled "An European Rondo" and it is based on artistic themes where the Music is the main topic.

Our main idea is that both, teachers and students, could participate in a direct way. So that we can all take advantage of this project.

The teachers who took part in the trip were the Coordinator and Music teacher; Clara E. Montaraz, the English teacher and David Ferrer, the History teacher.

The trip consisted in reorganizing a project which in the first place was addressed to six European countries and finally there are three: Spain, Italy and Germany.

In our meeting we dealt with not only the reorganization of the project but also with the exhibition of our ideas for our next meeting. It will take place the 20th and 21st of May in Benidorm. We will have the pleasure to receive the Italian and German teachers along with their students.

All the same time, we enjoyed the sight-seeings of the beautiful city of Genoa which was shown to us thanks to the kindness of the Italian teachers. We also saw the wonderful concert which was performed in Torriglia by the students who were the real stars, playing and singing well-known songs.

We would like to invite all teachers, students, parents and local administration to participate on the next event in May when we will show our guests our educational potential and hospitality.
