

WE ALREADY HAVE FORMATIVE CYCLES !

Welcome to the Formative Cycles of IES MEDITERRÀNIA in Benidorm.

This Secondary school has increased its curricular offer with the Medium and Higher Level Formative Cycles of Catering and Tourism.

In Medium Level we have the Medium Cycle of COOKERY. We train technicians for the labour world in a sector with great demand of staff. The degree of labour insertion is 100%. This sector of the Catering industry is requiring more and more professionals each year. The Cycle lasts two years, with practice in companies during the second year.

We offer Four Higher Level Formative Cycles:

- Higher Level Formative Cycle of CATERING TRADE.
- Higher Level Formative Cycle of ACCOMMODATION.
- Higher Level Formative Cycle of TRAVEL AGENCIES.
- Higher Level Formative Cycle of TOURIST INFORMATION AND MARKETING.

These cycles also last two academic years. The training is carried out in the Educational Centre during the first year, and the students do the practical part in companies during the second year.

The HLFC of Catering Trade is taught in the Educational Centre during the first term of the second year.

We explain the characteristics of each Higher Level Formative Cycle briefly:

- The HLFC (Higher Level Formative Cycle) of CATERING TRADE is guided to train professionals that will manage Catering companies.
- The HLFC of ACCOMMODATION is guided to the training of professionals of reception and hotel managers.
- The HLFC of TRAVEL AGENCIES trains professionals to work in the management of travel agencies, reservations, planning of trips, etc.
- The HLFC of TOURIST INFORMATION AND MARKETING is more guided to train professionals that will manage tourist information offices, travel guides, promotion and sale of tourist services and much more.

As we have seen at the beginning, the common characteristic of these cycles is the high degree of labour insertion, since we live in one of the cities with more tourist offer in the world.

If you want more information do not hesitate to call our phone number for information about cycles:
